SUBJECT: Local Hiring Policies

The discussion of a *Local Hiring Policy* during a recent Rules Committee meeting raised questions about prevailing wage requirements. It was mentioned that documentation required on prevailing wage jobs would aid in monitoring local hiring. Please provide answers to the following questions regarding the Housing Commission's hiring policies:

- 1) What percentage of FY09 and FY10 Housing Commission projects required payment of prevailing wage? Please identify those projects.
- 2) What steps does the Housing Commission take to monitor compliance with prevailing wage requirements?
- 3) How many staff positions are currently designated to monitor compliance?
- 4) What violations, penalties or fines were enforced in FY09 and FY10 for not complying with prevailing wage requirements?
